C-FLIP-OPT-DBY-D	Dolby D Decode			\$0.003				Per input minute for each stream in source

SD resolutions include any frame size with a short edge up to 600 pixels and a long edge up to 720 pixels.
 HD resolutions include any frame size with a short edge 601-1080 pixels and a long edge 721-1920 pixels.
 UHD resolutions include any frame size with a short edge 1081-2160 and a long edge 1921-4096 pixels.
 High framerates include framerates greater than 30 frames (or 60 interlaced fields) per second. 720p59.94/720p60/720p50 are charged as standard framerate.

Vantage Cloud Port Subscription Packages

Project Packages

Structure

- Available in 6-month and 12-month package durations, starting at \$12,500 USD
- Credits must be consumed during the project period.

Invoicing

- Invoicing will occur on a monthly basis, based on the actual usage during that billing period.
- If the included credits are exhausted prior to the package period ending, any subsequent usage for the remainder of the current billing period will continue to be discounted at the current rate.

Starter Packages

Structure

- Available in pre-packaged dollar amounts: \$10k, \$20k, \$50k, discounted at 30%.
- Professional service remote workflow days are included, to assist with workflow creation and modification.
- Credits must be consumed within a 180-day period.

Invoicing

- The full package price is invoiced upon order receipt.
- Subsequent invoicing will occur on a monthly basis, and a discount of 100% will be shown on all execution line items up the point when the starter pack credits are exhausted.
- If the included credits are exhausted prior to the package period ending, any subsequent usage for the remainder of the current billing period will continue to be discounted at the current rate.
