

Vantage Media Manager

Product Sheet

Vantage Media Manager

Organize content. Submit jobs. Save Resources.

Efficient production.

View, evaluate and organize clips from all cameras and sources rapidly on set. You can even convert video formats right in the Vantage Media Manager application.

Get control over media mayhem.

Quickly find and organize media files on your offloaded or archive drives. Select clips, and then export only the desired parts from long shots—perfect for reality TV or news.

Fill Vantage workflows right after shooting.

Ingest media simply and quickly into Vantage workflows and centralized storage, right from your desktop. Use easy-to-learn tools to peruse media files with an intuitive file browser & player interface.

What is it?

Vantage Media Manager is a front end, media management UI for Mac and Windows that allows users to browse, preview, tag, trim and submit content manually in the most efficient way for processing within an existing Vantage system or in the cloud. Customized Workflows, submission dialogs, filtering and sorting tools, file navigation and a media browser allow for easy job submission and the ability submit only the exact content you need to process.

What can Vantage Media Manager do for you?

Mac and Windows UI for Vantage submissions

- Provides a UI that currently doesn't exist in Vantage
- Allows easy manual submissions for all jobs

Process only the content you need

- Enables sorting, tagging and trimming of content prior to submission
- Enables the operator to focus only on content that needs to be processed, saving time and resources

Populate metadata that cannot be extracted automatically

- Dynamic submission dialog based on workflow configuration for metadata entry
- More freedom for workflow configuration, execution and functionality within Vantage

Centralized workflow support

- Centralized workflows with Vantage help to offload non-creative processes from creative teams
- The tedium of file imports, job submissions and content organization is now taken care of by Vantage, not your employees

Why you need it now

- More cost effective processing of media in Vantage or in the Cloud
- Easy manual submission for all jobs in Vantage, for everyone in your organization
- More freedom for workflow configuration, execution and functionality within Vantage

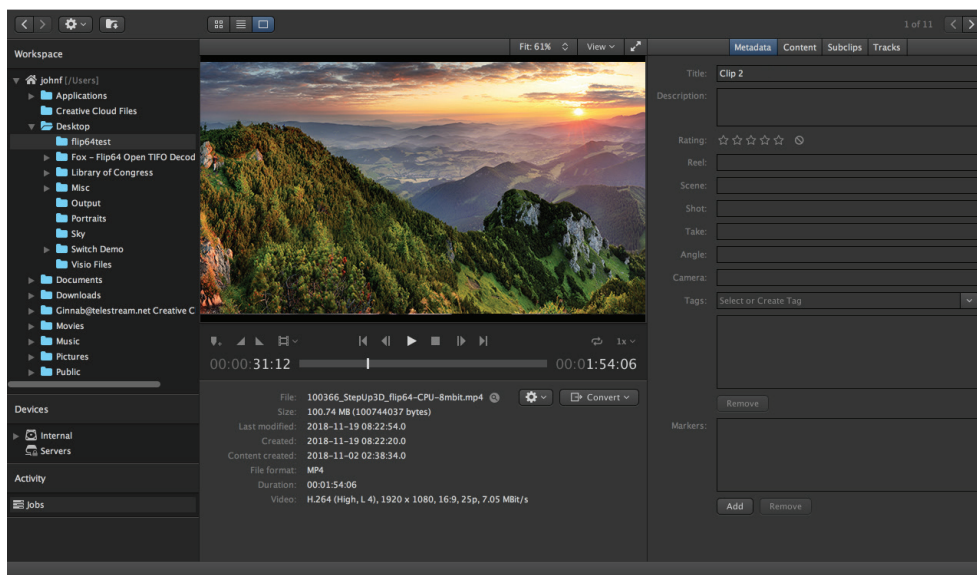

Outcomes At a Glance

- Less technical training for Vantage users
- Higher Resource efficiency
- Easy manual job submission
- More freedom for workflow configuration

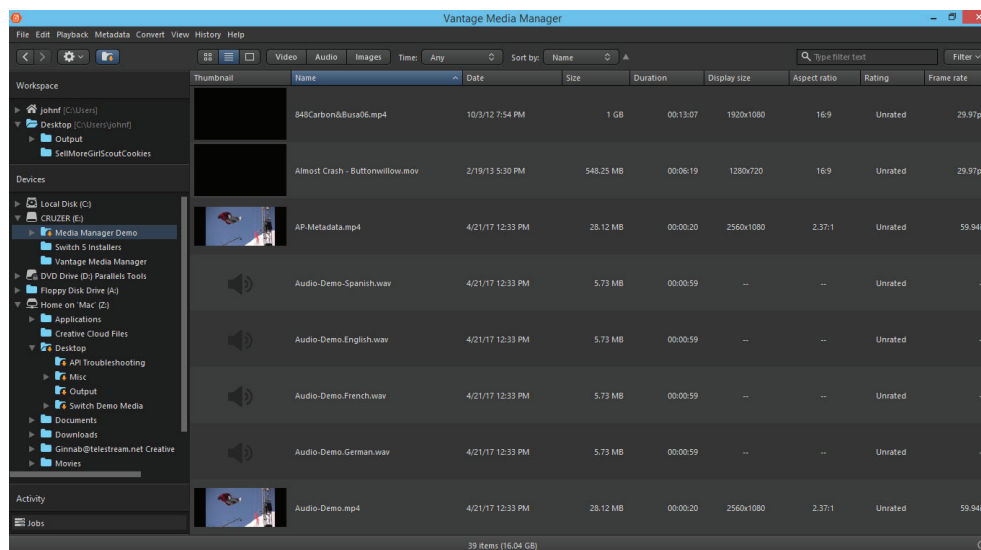

System Requirements

- Vantage Media Manager supports Vantage 7.2.x and 8.0.x
- Client OS versions are available for both Mac and Windows
